Commission

**For May 2022 Commission Meeting
Activity Highlights
Senior Team: Geoffrey, Craig, Laura & Alina**

- **AT&T Billing Progress** – ADE billing resolution is complete and processed. AT&T issued a credit for the months ADE was improperly billed. Gigamon circuits are being reviewed by management at AT&T for billing corrections.
- **FY23 Purchasing Prep** – Fiscal year 23 preparations have begun. This includes master log creation, preparing subsidy MOU's and subsidy calculation worksheet, and soliciting recurring service suppliers for FY23 quotes.
- **WOSU Migration** – Broadcast engineering completed the migration of WOSU circuits to the new location at Pearl Street.
- **CBTS Circuits** – Circuit rebuild and testing of 1G last mile connection was completed.
- **Quarterly engineering** meeting between affiliates and engineering staff held.
- **Backup Master Control** – Design and review of planned backup master control completed.
- Commission's **Engineering & Broadcast Operations Committee** held its first meeting on April 14th. Sharing insights with the Committee were retired Project Consultant John Luff and Project Integrator Willy Halla. Next meeting will be July 14th.
- **FY 22 Year End activities**: Senior Team planning for appropriate asset investments primarily in the Tech Corridor at our North Star facility. Successfully **passed City of Columbus Fire Inspection** on April 5.
- **Multimedia Production Project**: FY2022 – Projects on track to meet deadline. FY2023 – Working with ODE Commissioner Designee and team to focus on topics for upcoming year and set kickoff meeting.
- **Training** - FY2022 Securing Ohio (annual IT security training) completion: 81%. Ohio Ethics training modules rolled out to employees for completion by Dec 31, 2022.
